NATURAL COCOA FIBER MATTING

MODELS EM-300, EM-301, EM-302

Recommended Installation Instructions

PAWLING CORPORATION strongly recommends that all Natural Cocoa Fiber Entrance Mats be used only in heated, interior applications. The absorbency of the natural fibers can cause the mats to expand and buckle when exposed to excessive drainage from rain or snow. A heated vestibule or entryway allows any moisture the fibers absorb from everyday traffic to evaporate, rather than accumulate and cause a potential tripping hazard.
