Recycled Content of Aluminum Sheet Products

Pawling Corporation manufactures several impact protection products from aluminum sheet. These products include corner guards, crash rails, and flat products such as kick plates and push plates. The aluminum used in these products contains 81% post-industrial recycled content. In accordance with guidelines set forth in USGBC – LEED v3, the recycled content of the retainer is:

$$\text{Post-Consumer} + 1/2 * \text{Pre-Consumer} = 0\% + 1/2 * 81\% = 40.5\%$$
